

Ontario Green Energy Act

The New Ontario Green Energy Act (GEA)

On March 12, 2009, the Ontario Power Authority (OPA) made public the introduction of a Feed-In-Tariff (FIT) program with a 20 year contract for different renewable energy technologies. Solar Power is for you.

On September 24, 2009, the Government of Ontario officially launched Canada's first feed-in-tariff and micro feed-in-tariff.

What does this mean to you?

Sign up now!
10% - 18% returns!

Ontario Power Authority website:
<http://fit.powerauthority.on.ca/>

Two choices: Solar PV Projects

MicroFIT Program

Rooftop Mounted $\leq 10\text{kW}$ @ 80.2 c/kWh
Ground-mounted $\leq 10\text{kW}$ @ 64.2 c/kWh

FIT Program

Rooftop $>10\text{kW} \leq 250\text{ kW}$ @ 71.3c/kWh
Rooftop $>250\text{kW} \leq 500\text{ kW}$ @ 63.5c/kWh
Rooftop $>500\text{kW}$ @53.9c/kWh
Ground-mounted $>10\text{kW} \leq 10\text{ MW}$ @ 44.3c/kWh

Where to Start?

- To register or more information Visit the Ontario Power Authority (OPA) website:
www.microfit.powerauthority.on.ca
- Contact us for a free consultation and site and "pv watts" income estimate
- Choose your system and type of installation - panels, racking mounting system etc.
- Fill out the application online
- OPA will issue you a reference number and confirmation number
- OPA will send you a conditional Offer of Contract. Use this contract to secure financing if needed.
- Agree on a mutual contract and scheduling between parties.
- Installation is complete with an electrical inspection.
- OPA will send a formal microFIT or Fit contract and the system is connected.
- Earn Revenue!

Financing

Most major lending institutes recognize the new FIT and microFIT program. Lending institutes such as RBC are leading the way for Canadians to benefit from this program, generating green energy and making money!

Or invest your RRSP's in a safe and sure return. A 10% - 18% return on your investment

Signing up for the microFIT Program is simple. Apply online with minimal paperwork and no application fee!
